Swan–Ganz catheter, oximetric, for monitoring oxygen transport during volume expansion in ischemic neurologic deficits from aneurysmal subarachnoid hemorhage, 124
Synangiosis, ribbon encephalo-duro-arterio, for moyamoya disease, 455

Telangiectasia. See Hereditary hemorrhagic telangiectasia
Temporal bone, structure of, consideration of, in lateral approaches to petroclival region, 180
Teratoma
cystic, intramedullary spinal, of conus medullaris with caudal exophytic development, 106
immature, of basal ganglia, 490
primary, functional prognosis in, factors affecting, 9
Thalamic pain syndrome, anatomic and metabolic correlation, 147
Thrombolytic therapy. See also Fibrinolysis; Reperfusion
tissue plasminogen activator, for treatment of basilar artery thrombosis, 358
Thrombosis
basilar artery, treatment of, tissue plasminogen activator and transluminal angioplasty for, 358
retrograde, management of giant middle cerebral artery fusiform serpentine aneurysm with, 221
Tissue plasminogen activator, for treatment of basilar artery thrombosis, 358
Toddlers, See under Infants and children
Transoral-transpharyngeal-transclival approach, for intracranial extradural hydatid cysts, 230
Transsylvian approach, in middle cerebral artery bifurcation/trifurcation aneurysms, 217
Transverse-sigmoid sinus, dural arteriovenous fistula involving, 389
Trauma
atlanto-occipital dislocation, survivors of, radiology in, 112
neurosurgeon's displacement in, 351-le
